

Spreader Bars for Forklift

Forklift Spreader Bars - ELME has been proudly operating ever since the year 1974, becoming the biggest independent spreader manufacturer around the world. They are a devoted producer of spreaders intended for lots of different applications such as the trailers, handling of containers and swap bodies.

ELME presently has more than a hundred and twenty five staff with all engineering is done in house by means of making use of all of the latest FEM tools and CAD systems. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers all-over the world.

The ELME product collection offers spreaders for a variety of trailer and container handling operations. Some of their inventory comprise: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks and a huge range of additional parts.

ELME manufacturing and production is done in a highly automated purpose built factory. In the year 2008, they made over one thousand one hundred fifty spreaders by using high quality parts in order to guarantee reliability and excellent standards while offering reasonable prices. Major characteristics of ELME comprise design simplicity, market feedback and inventive modular spreader concept.
