

Meritor Part

Meritor Parts - The Meritor Business is a premier global dealer established upon one hundred years of tradition of service and quality. Meritor concentrates on integrated systems together with a range of modules and components to the original machine manufacturers and aftermarket equipment within the industrial and transportation trades.

Meritor values the wishes of their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their global operations. Meritor starts with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than 11,200 individuals, Meritor encourages collaboration and innovation amongst a team of knowledgeable experts.

Meritor strongly believes in just hiring future focused people. These top-caliber workers could quickly get used to to changing surroundings and freely exhibit the level of performance and commitment needed so as to attain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor provides their workers various chances for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of drivelines, axles, suspension and braking systems designed for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is even responsible for supporting the requirements of their worldwide engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group which is devoted to ensuring optimum growth at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 countries.

They have their supplier network which is specifically situated in order to support the growth of the business. Each and every regional team has globally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in each and every part of the trade. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is even included transactional Green Belts who apply Six Sigma tools to business methods and apply lean techniques.
