

Clark Forklift Parts

Clark Forklift Parts - Presently, there are at least 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in use in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 particular items designed for 20 unique models of lift trucks and automated equipment. Your regional Clark Supplier is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark's exceptional Parts Distribution Facilities are conveniently located in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Internationally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their customers predominates the material handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark's relentless goal to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the world to be certified with the internationally accepted quality standard ISO 9001 for every one of their production plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the structure of "Lean Production" at all of its assembly plants for the reason that this system is extremely economical and permits minimal use of resources. Developed to ensure maximum efficiency, this system is intended to discover and acknowledge the most effective methods for manufacturing plant management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing expenses. The new value engineering program combines modern product growth and provides superior customer support and service within the industry.
